

Start here.

Nine pages for the whole of December, not just the twenty-fifth: a gift list that keeps count of the money, a card list with the posting deadlines, the food, a lunch timed backwards from when you want to eat, the house, the day itself, and the week after.

1 WHAT IS IN YOUR DOWNLOAD

4 fillable kits	Letter + A4 · colour + ink-saving mono · 9 pages each
4 print kits	the same pages without form fields
Page 3 and page 6	the gift list and the lunch timing – start with those
This guide	printing and filling in, on one page

2 TYPE ON IT

Open a file ending in **-fillable.pdf** in Adobe Acrobat Reader (free) or a tablet app and type. Tick the boxes with a click. **Save a copy first** and keep it as this year's file – next December it opens as a head start rather than a blank page, with last year's gift list and addresses already in it.

3 OR PRINT AND WRITE

The **-print.pdf** files are the same nine pages without fields. Whatever else you do, print page 6 and put it on the kitchen wall: it is the lunch timed backwards from the hour you want to eat, and it is the page that stops the day going wrong.

4 PRINT IT WELL

- Paper: plain A4 or US Letter, 90–120 gsm
- Scale: **100% / Actual size** – never “Fit to page”
- White pages on purpose – a colour-filled background eats a cartridge
- Saving ink? The **mono** kit is the same layout in graphite only

5 TWO DATES TO LOOK UP IN THE FIRST WEEK OF DECEMBER

The kit leaves them blank on purpose, because they move every year and they are different in every country: **the last posting dates** (second class, first class, overseas) and **the return deadline** for anything you buy as a gift. Write them on page 2 and page 9, and the rest of the month works backwards from them.
