

Start here.

Thank you. Everything in this pack is yours to print as often as you like. Four short steps and you are set up.

1 WHAT IS IN YOUR DOWNLOAD

8 print PDFs

Letter + A4 · Dusk + Mono · EN + TR

8 fillable PDFs

type straight onto every line, then print or keep it on file

61 form fields per page

lines, task boxes, the day of the week, the mood scale

This guide

printing and typing in one page

2 TYPE ON IT

Open any file ending in **-fillable.pdf** in Adobe Acrobat Reader (free, Mac and Windows) or a tablet app like GoodNotes or Xodo. Click any line and type; tick the task boxes, the day of the week and the mood scale with a click. **Save a copy** before you start, then keep one file per day.

3 OR PRINT AND WRITE

Prefer pen and paper? The files ending in **-print.pdf** are the same page without the form fields — cleaner for printing in a batch. Print a week at a time and keep them on a clipboard.

4 PRINT IT WELL

- Paper: plain A4 or US Letter, 90–120 gsm holds ink best
- Scale: **100% / Actual size** — never “Fit to page”
- Margins: none / borderless, portrait orientation
- Saving ink? Print the **Mono** version — same layout, graphite only

5 IF ANYTHING LOOKS OFF

Message me through Etsy and I will sort it out the same day — a file that will not open, a size you need, a section you wish said something else. If the planner earns its place on your desk, a review helps this small shop more than you would think.
