

Start here.

Nine pages for a four-day weekend rather than one lunch: the egg hunt worked out from the number of children, a hiding map so the last eggs are found in April and not in July, baskets costed per child, Sunday lunch, and what to do on the other three days.

1 WHAT IS IN YOUR DOWNLOAD

4 fillable kits	Letter + A4 · colour + ink-saving mono · 9 pages each
4 print kits	the same pages without form fields
Page 3 is the one	print it, and take it outside with a pen
This guide	printing and filling in, on one page

2 TYPE ON IT

Open a file ending in **-fillable.pdf** in Adobe Acrobat Reader (free) or a tablet app and type. Tick the boxes with a click. **Save a copy first** and keep it as this year's file — next spring it opens with the baskets, the beds and the hiding places already in it.

3 OR PRINT AND WRITE

The **-print.pdf** files are the same nine pages without fields. Print page 3 whatever else you do: it is the hiding map, and it is the only one of these pages you will be holding while standing in a garden.

4 PRINT IT WELL

- Paper: plain A4 or US Letter, 90–120 gsm
- Scale: **100% / Actual size** — never “Fit to page”
- White pages on purpose — pastel backgrounds eat a cartridge and print muddy
- Saving ink? The **mono** kit is the same layout in graphite only

5 TWO NUMBERS THE KIT GIVES YOU, SO YOU DO NOT GUESS

How many eggs: roughly 8–10 each under three, 12–15 for three to fives, 18–20 for six to nines and 20–25 above that — page 2 has the table and does the multiplication. **And what it costs:** page 4 has a cost column per basket and a total, because Easter baskets grow every year when several adults buy separately and nobody adds it up.
