

- Expanded polystyrene (EPS) protective packaging
- ◆ Mycelium-composite protective packaging

Rate

How fast does the material change relative to the pace of use?

Directionality

Does change move toward a defined state, or is it open-ended?

Reversibility

Can a state be recovered, or is change cumulative?

Scale

Over what temporal horizon is the artefact assessed?

Distribution of agency

Who or what determines the trajectory?

Terminus

What is the end condition, and into what system does matter pass?
