

Start here.

Thank you. Everything in this pack is yours to print as often as you like. Four short steps and you are set up.

1 WHAT IS IN YOUR DOWNLOAD

8 print PDFs

8 fillable PDFs

1 Canva template link

This guide

Letter + A4 · Dusk + Mono · EN + TR

type straight onto every line, then print or keep it on file

change any word, heading, colour or section

printing and editing in one page

2 EDIT IT IN CANVA

Open the link below in a browser where you are signed in to Canva (free account is enough). Canva makes a copy in your own account — edit the headings, swap the wording, change the colours, then Share → Download → PDF Print.

OPEN THE TEMPLATE

3 TYPE ON IT INSTEAD

Prefer to keep it digital? Open any file ending in **-fillable.pdf** in Adobe Acrobat Reader (free) or a tablet annotation app, click a line and type. Tick the task boxes, the day of the week and the mood scale with a click.

4 PRINT IT WELL

- Paper: plain A4 or US Letter, 90–120 gsm holds ink best
- Scale: **100% / Actual size** — never “Fit to page”
- Margins: none / borderless, portrait orientation
- Saving ink? Print the **Mono** version — same layout, graphite only

5 IF ANYTHING LOOKS OFF

Message me through Etsy and I will sort it out the same day — a file that will not open, a size you need, a section you wish said something else. If the planner earns its place on your desk, a review helps this small shop more than you would think.
