Buy the eggs early, hide them from yourself

The good chocolate sells out in the last week and the shops are shut on the Sunday in a lot of places. Buy in the fortnight before, put it somewhere you would not casually open, and write on page 4 what is meant for whom — otherwise half of it is eaten before Friday and you buy it twice.

ZONES, SO THE LITTLE ONES STAND A CHANCE —

WHO

WHERE THEY MAY LOOK

BEFORE THEY GO OUT —

- ☐ Coats and shoes on before the sugar
- ☐ One basket or bag each, named
- ☐ A camera or a phone that is charged
- ☐ The rules said out loud, once

Three rules, said out loud before they start

Count the eggs before you hide them, or you will never know when it is finished. Give the youngest a head start and a colour or an area of their own. And say the rule that prevents the tears: **nobody eats anything until the whole basket is counted.**

TIMING —

Hidden by _____ Starts _____

If it rains, indoors from _____

NOT CHOCOLATE, FOR WHOEVER CANNOT —

- ☐ Plastic eggs with a coin or a sticker inside
- ☐ Dairy-free chocolate, bought separately and marked
- ☐ A small toy, so nobody is counting who got less

Where they are hidden.

SKETCH THE GARDEN OR THE ROOM Number the places as...

Draw it roughly — the fence, the door, the tree, the sofa. It only has to be good enough for you to read at the end.

This is the page nobody else sells, and the one you will use

Write down every hiding place as you hide it, and tick it off as it is found. Whatever is still unticked at the end of the morning is the chocolate that turns up behind a radiator in July, or under a hedge in a state nobody wants to describe. Two minutes with a pen now.

4/9

The non-chocolate column stops the crash at eleven

[illegible]

They start as one egg and end as a hamper because each adult buys separately and nobody sees the total. Fill in the cost column before you shop, not after. If several people are buying, photograph this page and send it — it is the cheapest conversation you will have this month.

THE MEAT, AND WHEN IT RESTS

It needs a rest either ...

What it is

The rest is not optional, and it is your free half hour

Meat out of the oven wants twenty to thirty minutes loosely covered — and that half hour is when the potatoes crisp, the gravy is finished and the table is laid. Plan it in rather than discovering it. Use a thermometer if you have one; time and colour are both worse guesses.

FOOD THAT HAS TO BE EATEN THIS WEEK —————

STILL NOT FOUND ————— From page 3 — go and look now

Half price from tomorrow

Chocolate, decorations, baskets and the plastic eggs are all reduced the moment Easter is over. Buy next year's non-food items now — the eggs will not keep, but the baskets, the ribbon and the plastic eggs will, and they go in the same box as the decorations with a label on the lid.
